***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims, the cited prior arts fail to teach the dynamic terminator resistor circuit comprises a first logic circuit for inverting the logic of a signal transmitted through the input pad, a second logic circuit for inverting the logic of the output signal of the first logic circuit, and a resistor that can connect the input terminal of the first logic circuit with the output terminal of the second logic circuit, as required by claims 4 and 5; the cited prior arts also fail to teach a level monitor circuit for selectively getting the first output control circuit or the second output circuit involved with circuit operation according to the voltage level of the external load, as required by claim 9; the cited prior arts also fail to teach the second output circuit includes a series connection circuit of an n-channel transistor disposed on a higher-potential power supply side and a p-channel transistor disposed on a lower-potential power supply side, as required by claims 10 and 11.

2. Claims 4-7 and 9-11 are now in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
